

**Welcome New and Returning Students to the successful MCX Super Star Student 2008-2009 Program!!!**

The Marine Corps Exchange (MCX) is committed to helping Marine Corps families and the Marine Corps community. It is our pleasure, for the eighth year, to introduce the *Super Star Student* program to you. This student reward program kicks off 30 September 2008.

The *Super Star Student* program not only rewards students for good grades, but also most importantly, stimulates their studies and improves their knowledge and learning abilities.

Students in grades 6 to 12 who obtain a "B" average (or equivalent) are eligible to participate. Home-schooled students were introduced into the program two years ago and they are encouraged to participate in the program once again this year. Eligible students must be authorized patrons of the Marine Corps Exchange. Students simply bring in their report card from their last grading period to any Marine Corps Exchange Customer Service Office and receive a Scratch-Off Card. (Please, one visit per grading period.) Each student is a WINNER! Prizes include MCX Gift Cards and U.S. Savings bonds up to \$1,000!

This program is supported solely by our many vendor partners. Their loyalty and continued support to this program is very much appreciated!

We always welcome new ideas and suggestions on improving this program. Please send your suggestions and/or ideas via e-mail to Vanessa Rodriguez at [rodriguezvl@usmc-mccs.org](mailto:rodriguezvl@usmc-mccs.org)

Thank you all for your support and goodwill in helping our *Super Star Student* program continue to grow, succeed and be a true benefit to our students!
